Grimsby, Ontario, Thursday, Sept. 21st, 944.

## STORE HOURS ARE PROBLEM

Lieut. Richard Scrivener, R.C.N., was formerly a Lieut. Commander at H.M.C.S. Dockyard, Halifax, supervising repairs done to damaged ships, for almost three years. To obtain sea experience he became a Lieutenant on the *Proquois*, being second in command of the engine room. Lieutenant Scrivener is a graduate in Mechanical Engineering, University of Toronto, and before enlisting, was with the Dominion Bridge Company, Toronto. He is thirty-one years old and single. His parents reside at 88 Livingston Avenue and came here last March. His father, Mr. R. M. Scrivener is a consulting engineer in Toronto, and came over Australia in 1908 to attend McGill University. Previously he had assisted his father, the late C. Scrivener, the head surveyor of Australia, and in charge of work in Canberra, the new capital.

## FACTS & FANCIES

Frank Fairborn, Jr.

### SUNDAY BASEBALL TO BE OR NOT TO BE

During the past summer the teen-age and older boys of the town have been in the habit of playing a friendly game of baseball on the public school grounds on Sunday afternoon.

At various times some citizens raised the question about the boys desecrating the Sabbath and did approach certain officials in an effort to have the boys stopped from pastime. Nothing of any consequence happened, however, until last Wednesday night when a petition was presented to the Board of Education asking that the grounds be prohibited for baseball or other sports on Sunday.

Board of Education did pass a motion prohibiting the use of all school properties for any and all kinds of sport on Sunday.

I was not at the Board of Education meeting and therefore do not know what stand the individual members took on the question or what discussion actually took place.

While dealing with this question, there are two points that I wish to make clear. First, rightly or wrongly in their decision, the Board of Education has it within their power, to grant or prohibit, any or all kinds of activities on school property, whether it be a baseball game, a hula hula dance or a church service. They have absolute control of the grounds.

Secondly, because Mayor Johnson, as Chief Magistrate of the Town, will not take action against baseball players or other sporting events, so long as there is no rowdiness, does not mean that bowling alleys, pool rooms and other private business of a like nature can operate. Those forms of entertainment are operated for profit and cannot function on Sunday.

There is no law in the Province of Ontario that says that boys and men or women cannot play baseball, softball, football, hockey, or any other game, so long as no admission fee is charged and there is no rowdiness.

Despite the fact that these ball games have been played on Sunday afternoon all summer long, there have been very few complaints. The Mayor received a few. This office did not receive but one. Had these games been causing a great commotion and were a source of a lot of rowdiness then both the Mayor's office and this office would have been flooded with complaints, and justified.

I can tell you one thing, Main street in front of the Chinese cafes and other spots has been 100 per cent free all summer long of gangs of young boys and men congregating during the period that these games of ball were being played. The boys were better off on that ball field getting rid of their excess energy than they would have been standing around in bunches on the Main street and a lot of them in other places where real harm would come to them.

I only received one complaint. An elderly man stopped me on the street and said "what are you going to do, or say, about these boys playing baseball on Sunday?"

"Nothing," I replied.

"Why not?" he asked. "They are desecrating the Lord's Day."

"How come you have become so sanctimonious all of a sudden? You have been desecrating the Sabbath for over 20 years to my positive knowledge." I shot back.

"No I have not," he flared.

"Yes you have," I said. "Every Sunday from the day that Deer Park Golf and Country Club was opened, until it was closed a year ago, you never missed playing golf on Sunday, rain or shine, from Easter until Christmas. Gasoline shortage is all that is keeping you from rampaging all over the country to play golf on Sunday, right now."

He looked at me fit to kill me, turned round and walked away.

That man, if you asked him, would claim that he was a good christian gentleman. Maybe he is. But to me he is a pure unadulterated hypocrite.

He and hundreds of others like him can play golf on Sunday and motor for pleasure on Sunday, go fishing, go boating, picnicing, swimming, but God help the poor working boy that wants to play baseball, softball, football or hockey on Sunday. Just where do these men get the special dispensation from the Lord to do what they do and not be desecrating the Sabbath the same as they claim a ball player is.

If these boys are to be stopped playing ball, then let's go all out and stop all desecration of the Sabbath. We will stop the large number of women in this town and district who are working day and night in our factories, from doing their washing and hanging it out, as they are doing now.

The Sunday that the particular ball game was played that caused the petition, I sat within 100 yards of the ball field and never knew there was a game going on until it was over. That is how much noise the spectators and players were making. Not any more noise than the women who were doing their washing.

On that same Sunday afternoon I observed one of Grimsby's most energetic insurance salesmen, stripping the paper off the walls of a couple of rooms to get them ready for the decorators. Also I witnessed one of our most prominent and most dignified residents digging his potato crop.

So there you are. If we are going into this Blue law Sabbath business we have a full time job on our hands.

The whole question has got to come to a head. In fact it will come to a head as soon as the war is over. Do not be surprised if a plebiscite is put to the people of Ontario on the question within a year of the cessation of hostilities.

Time has come when the people will not stand for the continuance of making flesh of one and fish of another. If Montmorency Puckington Gold dust can go pleasure motoring, fishing, boating, swimming, golfing, horseback riding on the bridge paths and such like on Sunday, then plain Bill Smith, who slugs all day in a factory, has just as much right to play ball or hockey or any other sport. And the Lord will think just as much of one as the other.

### FREEDOM

That is a great word, Freedom. It means liberty in every thing a man does, as long as he obeys the law.

The Freedom I refer to does not even come under the Four Freedoms.

My Freedom is from my Bank Manager.

Eric Ewing left town on Monday to assume his new position in Ottawa, and Mr. Holder (notice I say Mister) of Hamilton has assumed dictatorial duties in the LONE BANK that serves our 5,000 population.

I am free because I never let my paper lapse, but this was the first time that I ever had to clean up in such a short space of time.

Eric says "Oh, it's all right, you are down pretty low, Holder won't bother you."

I sez to myself sez I "I'll clean the sheet. Every other bank manager that I owed, and they have been legion, went out clean and Eric has to go the same."

I cleaned her. I don't owe a bank manager in the world a dime—but I owe the other guy that I borrowed it from.

God luck, Eric.

Welcome to "The Biggest Little Town in Th World," Mr. Holder.

### THE PRICE IS HIGH

Out of 28 names in the active service death list in a recent issue of The London Times exactly half were of only, or last surviving sons. That means so far as these families are concerned the line will completely disappear when the parents pass on, and in not a few cases the fathers of these sons now dead in France, in Italy or the dozens of other places British armies are fighting, were killed in the first Great War.

Over a million Britons lost their lives in the conflict which ended 26 years ago and with their death thousands of families which had been contributing much to the might of the United Kingdom for centuries, were obliterated. So far the price the Mother Country is paying in this war has been smaller but it is still terribly high.

## 'WAY BACK WHEN

Frank Fairborn, Jr.

THE 75th Anniversary of the founding of the McLaughlin Carriage Company—, the forerunner of General Motors of Canada, Limited, was observed last week at Oshawa. There was no let-up in production at Company plants, which have turned out hundreds of thousands of vehicles and armored units, since war began.

In 1869, the late Robert McLaughlin founded a carriage shop at Enniskillen, Ontario, with four employees. Today, nearly 15,000 men and women are employed exclusively on war production in General Motors plants across Canada. Among these workers are men who once built carriages for Robert McLaughlin. They have come out of retirement to apply their skill and craftsmanship on the assembly line for Mosquito Bomber fuselages.

This span of years from "buggies to bombers" saw McLaughlin carriages recognized as the finest in Canada; the introduction of the first McLaughlin car in 1907... the famed Model F... production of the first Chevrolet; formation of General Motors of Canada and the building of more than a million and a half motor cars, the last in 1942.

The expansion of Robert McLaughlin's Carriage business forced the company to move to a railroad town and in 1879 a new carriage factory was built in Oshawa. Improvements in the product were frequent, among them the McLaughlin patent buggy

work could begin on the McLaughlin tool units from necessary to build more than the ground up.

Modification and improvement in designs for war products made by General Motors' engineers, save the Canadian people two and a half million dollars a year in addition to saving millions of man hours and millions of pounds of such vital materials as rubber, metals and alloys and machine tools. Plant workers have received \$5,000 in Suggestion Plan awards in a year for ideas on speed-up production which backs up the ing production. Nearly 3,500 former employees now in the armed forces of Canada. In addition, employees have over-subscribed Victory Loans and are regular purchasers of War Savings.

At Oshawa, the GM Red Cross Blood Donor Clinic has sent 30,000 donations to be processed for overseas.

This year also marks the completion of 25 years by R. S. McLaughlin as first and only President of General Motors of Canada and 57 years as an employee. Recently he was congratulated by officials and employees on his 73rd birthday.

Recalling the progress of the organization begun by his father, Mr. McLaughlin said: "My father inherited nothing but his hands and a natural skill and creative ability. His decision to build a shop and a bold one to cause every village had one. But this one outlasted them all and here is why: This man had the spark of genius and a great creative energy... and the right country in which to put enterprise to work."

"When you look at today's General Motors

The McLaughlin Carriage Works was founded 75 years ago this week at Enniskillen, near Oshawa, by Robert McLaughlin and a handful of employees (above). Out of this village enterprise grew General Motors of Canada. Old-time carriage makers now devote their craftsmanship to GM's production

gear. This made the product more attractive and there was a move to still larger premises.

R. S. McLaughlin, who with his brother George had become partners with their father, recognized the possibilities of the horseless carriage and prevailed upon the Company executives to make the big move and enter the motor car field.

First the McLaughlin car came into being. Then the Chevrolet '490' was manufactured in Canada. The McLaughlin Carriage plant was expanded again to take care of the instantaneous demand. The carriage business was sold in 1915 but not before 270,000 carriages and sleighs had been manufactured and sold all over Canada. In 1918, the McLaughlin Motor Car companies were consolidated into General Motors of Canada. The carriage craftsmen found themselves associated with the largest industrial institution in the world.

Today, the successor of the small village enterprise produces the greatest variety of precision war equipment in Canada. Its employees are proud of the record production of motor transport vehicles, armored fighting vehicles, tank hulls, Browning machine guns, Oerlikon gun mounts, anti-tank gun carriages, the batteries and completely equipped fuselages of the Mosquito bomber, and a large variety of items, some of them still on the secret list. Company plants in Oshawa, Windsor and Regina are devoted exclusively to this varied war production.

This equipment has been in action on battle fronts in France, Italy, North Africa, India, Burma and Malaya. General Motors of Canada has sent civilian technical advisors to Europe, Africa, India and Australia to work in co-operation with the armed forces and to solve service problems on the spot. At home, the Company at its own plants has trained large numbers of army personnel in the use and maintenance of mechanized equipment.

Many of the war production jobs undertaken by General Motors had never been attempted before by automobile manufacturers. For instance, before

of plywood fuselages for the world's fastest bomber.

(Below) Fitting the outer skin on the famed Mosquito are E. J. James, (left) and William J. Drew (right), both with the Company since 1898, and Fred Branton (centre), an employee since 1903.

plants, building a vast output of vital war materials every year, you see what can be done in a country where there is incentive and opportunity.

"There is a lesson here as there is in any story of success. No great achievement in any line of endeavour was ever accomplished without hard work and sacrifice."

"I agree with Mr. Churchill that the nation which destroys initiative cannot live. If in Canada we are alive to opportunity, there is no likelihood of this country ever going backward. Canada will go forever forward."

### I KNOW SOMETHING GOOD ABOUT YOU

Wouldn't this old world, If the folks we met, be better, I know something, I would say: And then treat 'em good about you, us just that way!

Wouldn't it be fine, If each hand-c and dandy, Carried with it a sp warm and true, I know something, this assurance ing good about you!

Wouldn't things here be more pleasant If the good that's in us all, Were the only thing about us, That folks bothered to recall!

Wouldn't life be lots more happy If we'd praise the good we see! For there's such a lot of goodness in the worst of you and me.

Wouldn't it be nice to practice This fine way of thinking too; You know something good about me. I know something good about you!

# Mainly For MILADY

## Big Money In Grass Skirts

These are boom days for hula-hula girls in Honolulu. They are guaranteed \$100 a week and some make as much as \$200. It is easier work than welding in a shipbuilding plant. All they have to do is to have their picture taken with one of the many thousands of U.S. soldiers who are always in town on leave. For one dollar and a quarter they can have their pictures taken with a native belle in a grass skirt. Strange to say, not all of them are brunettes. Some are artificial blondes. These make an appeal to the sailors from the southern states who can't risk being photographed with girls who are even a light shade of brown. It is more expensive for a sailor to have a hula girl permanently on his arm. A tattoo like that costs \$12.50 and is as expensive as a permanent wave.

## Making Them Look Pretty

A maestro of make-up and hair-do has recently given his rules for enhancing beauty where there is beauty and, if not creating it, at least disguising its lack, where it is not. It is, he says, no miracle at all, but just common sense. It is all a matter of sizing up and summing up a woman's personality and possibilities. It is impossible, for instance, to turn an Alice-Sit-by-the-Fire into a night club glamour girl. The general principle on which this expert works is that sculpture is the basis of everything. He is not a plastic surgeon who makes a face over. He follows the actual form of a face, with its hair and eyebrow lines cheek and lip contours. Shades of cosmetics he does not consider important, for he says that once the outlines are right, almost any hue of powder and lipstick will do. In brief, it would seem that with hair do and make-up experts, as with consulting physicians, preliminary diagnosis is everything. It is a matter of finding out what a woman really is and then helping her to look herself.

## Graduates Earn \$5,000 A Year

It takes a really smart quiz expert to answer this question: What women's college is it whose graduates after a few weeks of practical experience make nothing of earning \$5,000 a year? The answer, to those who know Reno, Nevada, is simple. It is Smith's college, founded by the proprietor of a Reno gambling establishment to provide women dealers. Take Rhoda Wine, for instance, a former newspaper girl who came to Nevada for a divorce and while waiting for it went to Smith's college. She now, after graduation, gets \$90 a week plus tips and the tips from happy winners average \$150 a month. Another girl whose course at Smith's was a post-graduate one, for she was already a B.A. from the University of Oregon, makes \$18 as "pit boss" or floor supervisor in one establishment. Another girl who began her apprenticeship at \$35 a week made \$175 the first night when a big winner handed her that amount as a tip for bringing him luck. The priestesses in these temples of chance wear as a uniform a little green baize apron over slacks and have sickness insurance and many other benefits.

## "Won't Buy Nuttin'"

Here's a cute and timely episode that makes me yearn for the days when you could buy a good "all-day sucker", licorice sticks or what have you for a penny, and five pennies made a youngster practically self-supporting.

A few weeks ago a five-year-old was promised a nickel if he was a very good boy. He was — and he received his nickel, to spend as he pleased. He rushed down to the drugstore as fast as his two small feet could go, to buy an ice cream cone, but to his dismay the sign "No Ice Cream Today" met his eye. Then he asked for a bottle of pop mentioning that he had a whole nickel to spend. "But pop is seven cents my boy," the clerk announced. "Then give me a chocolate bar, please mister." "But a chocolate bar is 6 cents, and guess you can't have gum either for its the same price." A five-year-old jaw quivered, then his little face started to blaze. Throwing the fivecent piece on the counter, he stalked out of the store, with the clerk shouting "You forgot to pick up your nickel, son." "Naw I didn't," he shouted back. "It's no good—it won't buy nuttin' anyway." And firmly stalked down the street.—Elva Dorothy Curry, in Tweed News.

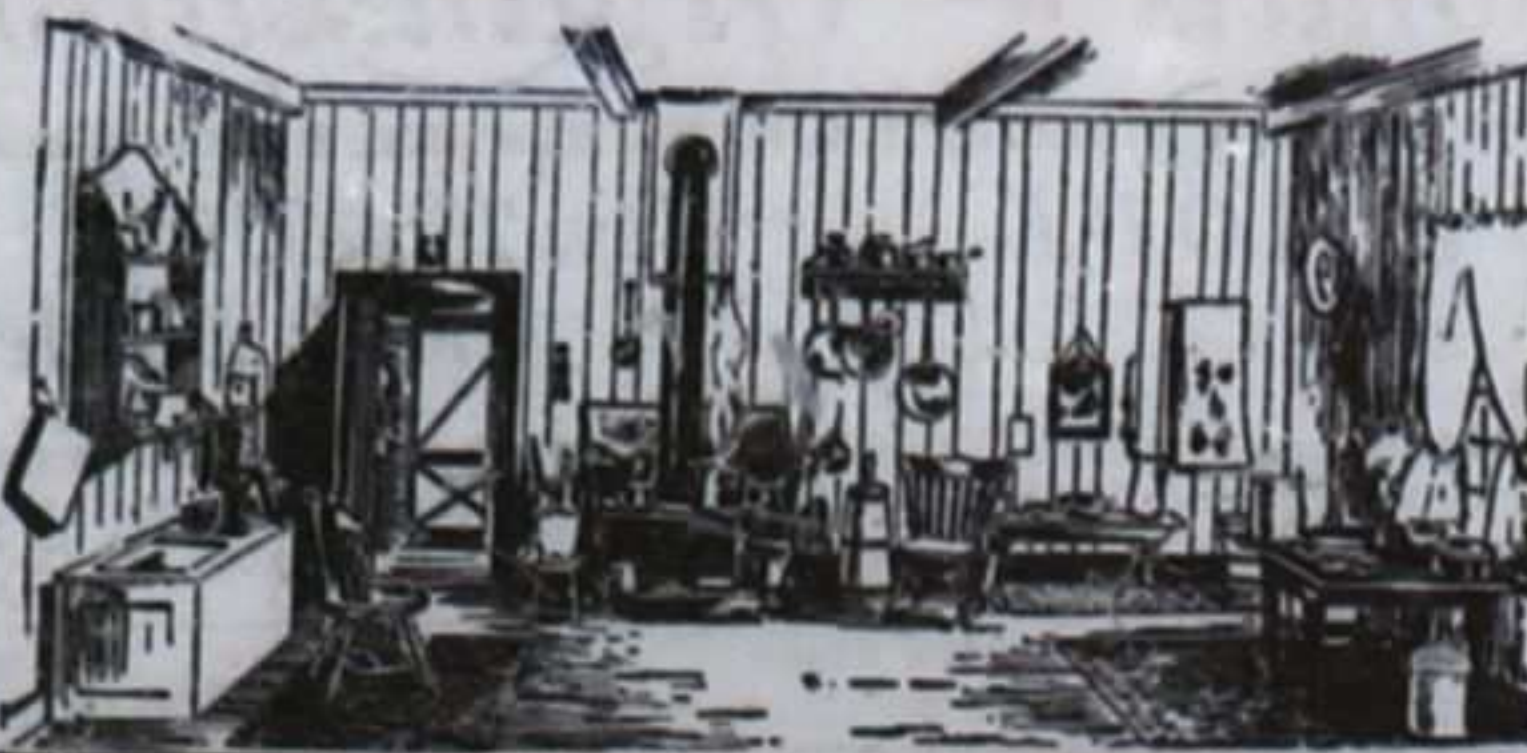

## Strange Marriage Customs

Marriage customs vary according to geography, race, color, and religious creed. They differ with different social sets, variations in climate, and degrees of wealth. The main idea everywhere, however, is to make an important and impressive affair of this all-important human institution, the wedding.

Perhaps the strangest of all marriage customs prevails among the Karen tribes who roam in the fields of Burma on the border of China. While in most countries weddings are associated with rejoicing, the Karen tribesmen link the ceremony to the most somber of all human experiences, death. All weddings take place in connection with funerals. When one or more members of the tribe die and no weddings are scheduled for that particular time, the bodies are buried in shallow graves until a wedding is to be performed. Sometimes a year or more elapses before a wedding is celebrated; meanwhile the corpses must rest in their temporary graves. Finally, when a wedding day arrives, preparations are made for a double event. A funeral party heads a procession carrying the corpses to their permanent resting place. Behind the funeral party are the bride couple, their relatives and friends. When the final burial is completed the wedding begins. It is celebrated near the graveyard.

The most primitive way of winning a wife, abduction, is not extinct. It is widely prevalent among the Eskimos of Greenland. The procedure is simple. A suitor singles out a girl who appeals to him, and flees with her. On their return they are regarded as man and wife. A wedding ceremony or celebration is needed. The custom of abduction is so firmly established among the Eskimos that the bride must appear to protest and be unwilling, even though she is being carried off with her own consent and connivance.

## The Trend of Things

Kitchen display in Home Building Exhibit in Chicago's Merchandise Mart

How the American kitchen looked in the gay 30s, when woman's work was never done, and its counterpart today. No other room in the house can match the transformation that has taken place during the 50-year period. The old kitchen looks quaint in retrospect but according to today's standards it was unsanitary, inefficient, and colorless. With its conglomeration of exposed parts, as unrelated as items in an old-fashioned general store, it offered the widest scope for the talents of kitchen designers and equipment experts who specialize in this field. Greatly aided by inventions, design innovations, and the will to make the work of the housewife less onerous, they have made today's kitchen as efficient as modern engineering technique permits. No longer is the kitchen a warehouse for miscellaneous odds and ends; it is more like a compact laboratory, carefully departmentalized to facilitate each step in food preparation. In sharp contrast to the antique kitchen is this modern type which is one of scores of equally graphic displays, covering all phases of building materials and home equipment, to be seen at the Home Building Exhibit in Chicago's Merchandise Mart. The floors and walls of this kitchen are of composite material slightly marbled. The floor is raspberry red with faint white and blue stripes, while the walls are blue-gray with a red border behind the immaculate white shelves and recessed refrigerator. The circular shaped ceiling in the breakfast nook unit is red also, while the setting is of blue leather, the table is stainless steel and the walls behind it glass brick.

## THE MIXING BOWL

By ANNE ALLAN

Hydro Home Economist

Hello Homemakers! "Cut peelings as thin as possible to save food value. Better still, cook vegetables with their skins on." These words of advice have been spoken by many food authorities.

There is sound logic in such advice, because it has been found that there is more food value next to the skin in most vegetables.

When the skin is left on during cooking, not only do you retain the precious mineral and vitamins directly underneath, but the skin acts as a protective covering, holding in the food value of the rest of the vegetable. Among the early winter vegetables this theory applies to potatoes, squash, carrots, parsnips and egg plant.

So for food value economy we recommend potatoes boiled or baked in their jackets; squash, baked or steamed in its shell; carrots and parsnips just well scrubbed, not peeled, before boiling, and egg plant cooked unpeeled, then stuffed for serving.

**TOMATO STUFFED POTATOES**  
6 large baked potatoes, 4 tablespoons finely chopped onion, 5 tablespoons canned tomatoes, ¼ teaspoon mustard, ¼ teaspoon celery salt, pepper, salt.  
Cut baked potatoes in half lengthwise. Scoop out the contents. Mash and add chopped onion, canned tomatoes, mustard, celery salt and pepper to taste. Mix well and refill the potato shells. Return to the oven and reheat thoroughly. Yield: Six servings.

**BAKED STUFFED EGGPLANT**  
1 eggplant, 1 cup soft, stale bread crumbs, 2 tablespoons butter, 1 tablespoon finely chopped onion, salt, and pepper, 1 egg, well beaten, 1 cup bread crumbs.  
Cook eggplant 15 minutes in boiling salt water or ham stock to cover. Cut slices from top and carefully move pulp with spoon, taking care not to break skin. Chop and mix crumbs. Cook onion pulp, season, and, if necessary, moisten with a little stock or water. Cook five minutes, cool and add egg. Refill eggplant, cover with crumbs, and bake 25 minutes in electric oven at 375 degrees F.

**FRIED ZUCCHINI SQUASH**  
Wash and cut in half-inch pieces. Sprinkle with salt and pepper, dip

in crumbs, egg, and crumbs again, fry in hot fat and drain.

**CREAMED SALSFY OR OYSTER PLANT**

Wash and scrape the salsify throwing it immediately into cold water to which a little vinegar or lemon-juice has been added, to prevent discoloration. Cut in inch slices and cook in boiling water until tender, adding salt just before cooking is completed. When tender, drain and combine with medium white sauce. Serve with tiny fried sausage balls.

**STUFFED PEPPERS**  
½ cup canned tomato soup, ½ cup hot boiled rice, salt, 1 sweetbread, parboiled and cut in cubes, 2 eggs, 6 green peppers.  
Combine ingredients, except peppers. Parboil peppers, stuff with prepared mixture and bake 10 to 15 minutes in electric oven at 400 degrees F. Serve with tomato sauce.

**CREAMED TURNIPS**  
Reheat three cups diced, cooked turnip in one cup white sauce; 2 tbsps. bacon fat, 2 tbsps. flour, 1 cup milk, ¼ tsp. salt, few grains pepper and 2 grains nutmeg.

**THE QUESTION BOX**  
Mrs. F. M. suggests: Two new sandwich fillings that are specials.  
1. Mix ½ cup chopped hard-boiled eggs with 1 tbsp. chopped olives or pickles and 2 tbsps. prepared mustard.  
2. Blend 2 tbsps. prepared mustard into 4 tbsps. butter. A grand spread for meat or cheese sandwiches.

Mrs. W. G. suggests: A good vegetable plate: Make very thick white sauce using 2 cups milk. Add ½ tsp. mint, 1½ cups each of cooked peas, carrots and corn. Spread in 2 pans. Chill. Cut in triangles, coat with crumbs and fry. Serve with sliced tomatoes, cucumbers and wedges of lettuce.  
Mrs. G. J. M. has a suggestion for R. B.:  
To make red Chili Sauce: Peel and core tomatoes, put in pan, mash with wooden potato-masher, cut up onions, bring tomatoes and two onions to a boil, then take off lid of pan and let cool till Chili Sauce thickens. Then put in sugar, salt (spices mixed with the vinegar) and let cool for a few minutes longer, stir well.

## Novel Menu Not New

Suppose you sat down to a dinner consisting of tomato cocktail followed by lima bean soup. Next come roast turkey, sweet potatoes, scalloped potatoes, baked squash, stewed corn, and trimmings such as pepper jelly, guava jelly and chili sauce. After the inclusion of an alligator pea salad, let's top it off with fresh pineapple, maple syrup or vanilla tapioca pudding, and cocoa or mate, peanuts, pecans and brazils.

If you are still interested in food, you may like to know that all of the items on the menu, and many more, are strictly of New World origin. A visit to the Royal Ontario Museum will disclose that many of these items were prepared by American Indians. Their recipes were different from ours, but the articles are the same. The menu given above is in a sense borrowed from the Indians of the Southwest, from the Iroquois group, and from natives of Peru. It is novel but not new.

## Eye Appeal Plus Health In Packed Lunch

Packing lunches seems to be a nationwide chore these days.

In cities, street cars are crowded with lunch carriers; on the farm the men start the day so early that mid-morning and afternoon snacks are needed; the children take lunches to school when it's in session; and nearly everyone enjoys a picnic lunch occasionally.

Lunches to be eaten away from home should be planned around the nutritional needs of the day. They can contain the extra fruit or vegetables and milk, needed to make up the daily quota. Whether the lunch is eaten on the job, or at a berry-picking bus, or on a "just for fun" picnic, Nutrition Services at Ottawa suggests that fresh, crisp lettuce, celery, radishes, whole tomatoes or raw carrots go as well in the lunch box as they do on the salad plate at home.

## Proper Care Of Your Sheets

When buying sheets choose those that you can tuck in at the foot of the beds and still be long enough to fold back over the blankets at the top. Jot down the width and length of the beds for which you are buying before you go to the store, and shop accordingly.

Since May, 1942, sheets have had to be labeled to show just what grade they are. This helps you to know quality. But examine texture and weight, hold the sheet over a dark surface and rub it together a little to see if any white powder flecks off. That would mean that sizing had been used, and sizing might cover up poor weaving or poor texture. Sizing washes out in a very short time and leaves a thinner, more sleazy fabric.

White sheets should be washed in hot soapy water and rinsed until the rinse is clear. Boiling keeps them white. And don't forget bluing in the rinse. Colored sheets should be washed in warm water and well rinsed, but never boiled nor hung in the sunshine.

It is said that man is the only animal that has a chin. And, boy, the chin music some of them do turn out.

## Doing His Bit

There are dozens of kiddies in Grimsby and North Grimsby, like this young lad, who are doing their share to win the war by gathering waste paper for the Salvage Committee.

Some men are so tough that when they wrestle with their conscience they never permit it to throw them.

Junior gets encouragement in buying the comic magazines. You see dad gets an opportunity to read and explain them to the boy.

## FLOOR FRESH SCRUBBED AND SINK'S BACKING UP!

## POUR IN GILLETT'S!

No reason to get excited when drains clog... If you have Gillett's Lye handy. Just pour in, and bingo! The greasy mess clears right out! Water runs freely again.

This tip-top, powerful cleaner will save you endless drudgery. Whisks away dirt and grease without hard scrubbing. Deodorizes garbage pails. Destroys contents of outside closets. Gets everything it touches clean and sweet in a jiffy. Don't wait to learn the many ways Gillett's will help you "take it easy." Get some today.

Never dissolve in hot water. The action of the lye itself heats the water.

MADE IN CANADA

## PLEASE DO NOT BLAME YOUR BUS DRIVER

It's not his fault that the bus is late or crowded... that you have inconveniences and discomforts. He only carries out his orders and has no control over war-time conditions. If you have any complaints to make, please do so at the company's head office... not to the driver.

## MUFFINS MAKE THE MEAL

**MAGIC APPLE MUFFINS**  
2 cups sifted flour, 3 tbsps. Magic Baking Powder, ½ tsp. salt, 1 tbsps. sugar, ¼ tsp. allspice.  
Sift together dry ingredients; add eggs, milk, melted shortening and apple mix all together quickly. Bake in well-greased muffin pans in hot oven (400°F.) about 20 minutes. Makes 12 muffins.

MAGIC MAKES THE MUFFIN!

MADE IN CANADA

# Social Events — Personals — Organizations — Club Activities

Ollie Shaw was a visitor to Detroit this week.

Bruce Murdoch has been on the sick list this week.

Mrs. Fay Kuhne is reopening the beauty salon at 14 main east about the first of October.

Sgt. Douglas Scott, R.C.A.F., St. Johns, Que., is home on holidays with his wife and kiddies.

Wm. Newton, North Bay was a weekend visitor with his father Jack Newton, Oak street.

Cpl. G. A. Stewart, of the R.C.A.M.C., Regina, Sask., visited at the home of his mother, Mrs. U. Stewart, Elizabeth Street.

Mr. and Mrs. John Halle of Cobourg were visitors in town on Monday. It was just 37 years ago that Dolly Reid, daughter of the late E. H. and Mrs. Reid was married in St. Andrew's church by Rev. J. Allan Ballard. The Reid family at that time resided on the farm now owned by Mrs. George Hoshal, No. 8 highway east.

J. Ritchie McVicar was a visitor to Renfrew over the weekend.

Jas. A. Jackson of Hamilton was a visitor in town on Saturday.

Sapper Chris. Chester, R.C.A., on the Pacific coast, is home on furlough.

Leading Stoker Russell Smith, R.C.N. Montreal is holidaying at his home here.

James and Mrs. Bird, Niagara Falls, Ont., were looking up old friends in town on Saturday.

Miss Irene Sherrin, Mrs. L. Eckley and sons Leland and Harry, Toronto, are visiting in town.

Frank E. and Mrs. Russ have returned home after spending the summer at their camp in the North country.

Ross Hermiston of Stirling, visited with his parents Andrew and Mrs. Hermiston, St. Andrew's Ave. last week.

Mrs. S. Russon Groves of Westmount, Montreal, is visiting her aunt, Mrs. Herbert Thornhill, Robinson Street, South.

We are awfully pleased to chronicle this week that Major Dave Bell, M.C. west, who underwent a most serious operation in Christie street hospital some six weeks ago, was able to return to his home on Thursday last. Major Bell's crack sales manager will not be able to assume his arduous duties for some time yet but is making real progress which is very gratifying to his legion of friends throughout the district.

## I.O.D.E.

The September meeting of Lincoln Loyalist Chapter I.O.D.E. will be held in the Chapter rooms on Monday evening, September 25th, at 8:00 sharp.

The committee in charge of collection of fruit for Christie Street Hospital, wish to thank all those who so generously donated to this worthy cause.

## Nuptials

TAYLOR-NEALE

On Saturday afternoon, September 16, in St. Andrew's Anglican Church, Grimsby, at 4 o'clock, the wedding was solemnized of Edith Mary, daughter of Mrs. Neale and the late Mr. Robert Neale, and Mr. John Beverley Taylor, son of Mr. and Mrs. Charles E. Taylor, Beamsville. Rev. A. E. Brooks officiated.

The church was decorated with pink and white gladioli, and Mrs. W. Melbourne, sister of the groom, sang The Voice That Breathed O'er Eden, assisted by the choir.

The bride was given in marriage by her brother-in-law, Mr. Robert Cosby, and wore a gown of broad satin, her long veil held in place by a coronet of seed pearls and orange blossoms. She also wore pearls, the gift of the bridegroom, and carried American Beauty roses.

Mrs. Robert Cosby, matron of honour, wore a white French embroidered organza gown with blue net headpiece, and carried a bouquet of yellow gladioli.

The bridesmaid, Miss Alice Neale, wore a gown of white net and broad satin with a headpiece of blue net, and her flowers were pink gladioli. The little flower girl, Miss Dorothy Walker, niece of the groom, was dressed in white tulle with a pink headpiece, and had a colonial nosegay of sweet peas and roses.

The best man was Mr. William H. Melbourne, Hamilton, and Mr. Jack Horrell, Winona, and Mr. Thomas Walker, Hamilton, ushered.

A reception was held at the bride's home, with her mother receiving in a two-piece dress of green crepe and wearing a corsage bouquet of yellow gladioli. The mother of the groom was attired in printed turquoise crepe and had a corsage of pink roses.

For travelling, the bride went away in a yellow wool dress, with brown accessories and a corsage of red roses. After a short motor trip the couple will reside in Beamsville.

## The Mexican Way

The Mexican Government, because of its failure to persuade many commercial boards of any way to place it on sale at official prices, has just hit upon a clever idea to attain this object.

Fifty trucks, each loaded with over a thousand packets of sugar, with their horns blowing and bearing placards announcing their mission, moved up and down the streets of the poorer suburbs of Mexico City every day, selling one packet of sugar at the fixed Government price of about sixpence for a packet containing 2 1/5 lbs. to every one who needed sugar.

Hundreds of people ran out of their houses to buy these packets of sugar and cheer and applaud the truck-drivers and distributors.

And now sugar that was supposed to be very scarce is appearing everywhere in the city's grocery shops.

## Coming Events

Notices under this heading will be charged at the rate of 35 cents for 30 words, or less. Over 30 words 1 cent per word.

The women of the Presbyterian Church purpose holding a Bazaar sale on Friday and Saturday, September 22nd and 23rd in Rob Hillier's store.

## BROIL FRUIT

Put slices of peaches and pears on a grill. Drizzle with honey and mint and broil for 5 or 6 minutes.

A pressure group is another thing that has a tendency to give a politician high blood pressure.

## New Type Of Milk Bottles

After a year's trial, the innovation of square milk bottles in quarts and half-pints at Cedar

Rapids, Iowa, and other cities in United States, has proved a success. Basis of the change from round milk bottles was the desire to conserve cold storage space and to increase truck loads. It was found that about 45 per cent more milk could be stored and considered.

## Chinese Ceilings

Chungking authorities set a ceiling price for ice at 12 Chinese dollars a pound (60 U.S. cents at official exchange rate) as recently the city broiled in a heat wave.

Other ceiling prices fixed for hot weather refreshers were: ice cream, 60 Chinese dollars (\$3) a cup; lemonade, 40 dollars (\$2) a bottle; iced milk, 50 dollars (\$2.50) a glass; ice suckers, 18 dollars (90 cents) a stick.

A second-hand refrigerator was advertised for sale at 650,000 dollars (\$32,500).

## Anniversary Of St. Andrew's

The Sesqui-Centennial Celebration of the founding of the Parish of St. Andrew's and the establishment of the first church in 1794 and the erection of the present stone church in 1819 will be held during the latter part of September and the first half of October. Celebration dates are as follows:

Sunday, September 24th—

8.30 a.m.—Holy Communion. Celebrant, the Rector.

11.00 a.m.—Confirmation and Dedication of Gifts.

3.00 p.m.—Service of Commemoration and Thanksgiving for the Founders and Builders of the Parish. Decoration of graves of pioneers. Address—The Rt. Rev'd L. W. B. Broughall, M.A., D.D., Sixth Lord Bishop of Niagara.

4.00 p.m.—Afternoon Tea in the Parish Hall.

7.00 p.m.—Evensong.

Sunday, October 1st—

8.30 a.m.—First Communion of the Newly-confirmed.

11.00 a.m.—Choral Communion. Sermon—Rev'd Canon Wm. Bertal Heney, M.A., D.D.

7.00 p.m.—Preacher, Very Rev'd R. H. Waterman, Dean of Niagara.

Wednesday, October 4th—

(Anniversary of the birth of the First Rector in 1790). Parish Supper at 6.30 p.m. followed by Historical Meeting.

Sunday, October 8th—

Thanksgiving and Harvest Home. 8.30 a.m.—Holy Communion.

11.00 a.m.—Matins, Preacher, Rev'd Canon D. Russell Smith, M.A.

7.00 p.m.—Evensong. Rev'd J. Allan Ballard, Rector Emeritus of St. Andrew's.

Sunday, October 15th—

8.30 a.m.—Holy Communion and Sermon.

11.00 a.m.—Choral Eucharist.

7.00 p.m.—Evensong. Masonic service. Preacher, the Rector.

An economist says there are too many \$1,000 bills in circulation. It's funny, but we haven't noticed it.

Some people know what to do with their waste paper. They litter up the picnic grounds with it.

## BREVITIES

## EVENTS and TOPICS of the WEEK in TABLOID . . . . .

Fill a Ditty Bag.

Blood Clinic next Wednesday.

Today is the first day of Autumn.

Fire Prevention Week. Oct. 8th to 14th.

Children's Aid Society Tag Day, Saturday.

Tag Day for the Blind, Saturday, Sept. 30th.

Hydro Commission meets next Tuesday afternoon.

There will be a change in C.N.R. train services on Sunday.

150th Anniversary celebration and Services, St. Andrew Church, Sunday.

Burlington Council are considering the purchase of their local Hydro system.

Victory Loan time will soon be here. Better start to figure on how many bonds you will buy.

In word received from Italy by Mrs. Evelyn Murdoch, her husband, Pte. Ian Murdoch is ill in hospital. He has been in Italy for over a year.

P.O. Roy Hurst, son of Harvey Hurst, John street, who has been overseas with the R.C.A.F. since 1940, returned home on Monday.

He will visit with his father and relatives until next month when he expects to be posted for instructional duties at some Canadian camp.

Village Inn dining room has been closed to the public since last Friday morning. Ming Wong who operates the elite eating spot severely injured himself while lifting a heavy case and was rushed to Hamilton hospital where an emergency operation was performed. He is making good progress now.

Sigm. Gordon White of Winona, who lost a leg in the Normandy invasion, was among the large number of Canadian wounded to arrive in Toronto on Monday. He was met at Toronto by his wife and daughter Judy, who saw her daddy for the first time. Mrs. White is a daughter of Alex and Mrs. MacKenzie, Grimsby.

Declaring that the public, and especially women and girls, must be protected, Justice Frederick Barlow in Supreme Court in St. Catharines on Thursday last sentenced Angelo Nicholas, 26-year-old Crowland taxi-driver, father of two children, to seven years in Kingston penitentiary, on a charge of attempted rape.

Paul Grunewald, aged 44, Louth township fruit farmer, is in custody on a charge of operation of an unlicensed still for the purpose of manufacturing spirits contrary to the Excise Act. Grunewald's arrest followed an RCMP raid last week, in which what is described as a 75-gallon capacity still apparatus was seized in the farmer's house.

Elberta peaches are the finest sample this year that have ever been produced in the district. Several magnificent samples have found their way to The Independent and they are certainly the largest type of this variety of peach that we have ever looked at. One six-quart basket contained only 12 peaches and each one measured over three inches in diameter. We also received a grapeberry that was fully matured and perfectly formed that measured one and one-eighth inches.

It has got so that a poor, bedraggled newspaperman never gets a chance to catch up on his sleep. Sunday has always been a favorite day for snoozing, with ordinarily only Bruce Murdoch breaking the rest, but last Sunday not only Murdoch interrupted the dreams but Beamsville's one man Chamber of Commerce burst in on our sleep and spoiled the whole day. "Pep" Sheppard who if given a chance could be the whole German army in his head, he tried in 1914-15 and succeeded pretty well, paid me a visit, as he believes it or not I never got a wink in edgewise for a solid hour. Come again, "Pep".

## TRAIN SERVICE CHANGES

Effective

## Autumnal Equinox

On the 22nd September the sun crosses the equator and enters the sign Libra (the scales). It is early October before the day begins to shorten. On October 10th the sun rises at 6.07 and sets at 5.27 p.m., Standard Time.

## Tracing History Of Grimsby Beach

The first members of the Historical Committee appointed by the Grimsby Beach Cottagers' Association were given power to add to their number.

They now announce that the first addition has been made by the appointment of Miss Margaret Harwood of 77 Barnesdale Boulevard, South, in Hamilton, Ontario, who has already made a considerable study of the early history of Grimsby Beach, and will be a valuable acquisition. The committee now consists of three members: P. H. Davidson, Albert Waite and Miss Margaret Harwood.

## Obituary

## JENNIE J. MONTGOMERY

After a lingering illness there passed away in a Rest Home in Toronto, early on Wednesday morning, Jennie J. Montgomery, relict of the late Wm. Montgomery, in her 83rd year.

Deceased lady came to Grimsby with her husband over 30 years ago and was a well known and highly respected resident of this district up until about 18 months ago. She was born at Iroquois, Ontario. Her husband predeceased her in December, 1938.

Funeral service will be held this (Thursday) afternoon at 2.30 from the Stonehouse Funeral Home, Rev. J. W. Watt, officiating. Interment will be in the family plot in Queen's Lawn cemetery.

## JOHN ZALEC

John Zalec, a fruit grower and resident of the Grimsby Beach district the last nine years, died after a short illness, in Hamilton General Hospital, on Sunday.

Deceased was in his 43rd year and a native of Yugoslavia. He came to Canada 15 years ago and was for a time a resident of North-ern Ontario.

Surviving are his wife, three daughters, Mrs. Tony Vracay, Grimsby Beach; Annie and Lillie, at home. Five brothers, Peter, in Hamilton; Steven, Frank, Lewis and Joseph, and three sisters, Annie, Christine and Katie, all of Yugoslavia.

The funeral was held from his late home on Wednesday morning with high mass at 9.30 in St. Joseph's R.C. Church, Grimsby. Burial being in Queen's Lawn Cemetery.

## SHARON ANN FARR

Friends and relatives in large numbers attended the funeral of Sharon Ann Farr, daughter of Mr. and Mrs. Alfred Farr, Smithville, on Friday afternoon. Rev. H. A. Boyd conducted the services at the funeral home and in the United Church Cemetery, where interment was made. Casket bearers were Ralph Awrey, Kenneth Christmas, Larry Hunter and Duncan McEachern.

## Navy League News

Our campaign for Ditty Bags is still going on. Mr. J. R. Gibbs has offered his assistance. Through his efforts Miss Gine and Mr. Gillespie are distributing Ditty Bags at Grimsby Beach. At Winona, Mr. H. Edwards has a supply of Ditty Bags. Any one in these localities wishing to fill a bag, please get in touch with them.

We appeal to everyone to help us in this good cause. The cost of filling a bag is approximately four dollars, which is not much compared to the pleasure some sailor will have who receives it. If we do not fill them it means that Canadian and Allied men of the sea will be disappointed at Christmas time when they look for these Ditty Bags.

As Christmas presents and as stocks of filling up their depleted list of personal necessities such as razor blades, writing paper, play and pipe, sewing kits, T.G. cards, woollens, etc. obtain empty Ditty Bags may be next to the headquarters be at Eaton's office. They should position out and filled as soon as they so that they can be on way to ports for distribution under 15th.

# SPORTOLOGY

(By Bones Livingston, Sportologist)

### PEACH KINGS HAVE TOUGH TIME

By the time you read this, Peach Kings will either have won a ball game down at Batawa, or else they have taken a larruping. They played in the eastern village yesterday afternoon in the first game of the finals for the Intermediate "C" championship. Whether they were good enough to take the Shoemakers or not will be found in another column of this paper.

Things went all haywire with the Kings last week. Having beaten the Southampton Fishermen the previous Saturday by 16-2 on the home grounds they went back to the Lake Huron village on Wednesday for the second game and for some unknown reason, which they cannot explain themselves, they got trimmed 5-4. This meant that a second game had to be played right then and there in order to declare a winner. Belcott pitched the first game. Cocks went to the mound in the second game and had the Fishermen tied up in knots for five and a half innings. Also the Kings were starting to slam the ball to all corners of the lot. Then the spectators took a hand in the game. They suddenly became riotous over Cocks' pitching.

Fears, plums, apples and a few odd tomatoes started to fall from the skies. Big Rush claims he saw more pears in Southampton than he ever saw in Grimsby. When Umpire Wray Fisher ordered the crowd to behave and called upon the Southampton management to provide police protection the mob went nuts and swarmed over the diamond. In the meantime Southampton's BRAVE police force had vanished for parts unknown, which usually happens in a hic' burg like Southampton. The umpire from Port Elgin stood his ground and backed Fisher up. Then the mob attacked the two ump. Fisher was knocked to the ground and Big Rush and Johnny Aikens both got a poke in the chops in rescuing him. As senior umpire, Fisher gave the Southampton management five minutes to clear the field, which they did not do, and Fisher awarded the game to Grimsby as the rules call for.

Southampton protested to the O.A.S.A. and that organization granted their protest with the result that Kings had to go to Guelph on Friday and play a fourth game. In the meantime Southampton put up a squawk to Cocks' Commanding Officer in London over his playing, which did not get them to first base. The St. Ann's school teacher went to the mound in Guelph and showed the fish catchers what a good ball pitcher really looked like. He pulled out a 5-6 win ably backed by his team in the field and at bat.

With all the above mix-up going on Batawa stepped into the picture, and rightly so. The Shoemakers were called upon to play either in Grimsby or Southampton on Saturday. Now it is 170 odd miles from Grimsby to Batawa and 320 miles from Batawa to Southampton. Which ever place they played they could not leave home until dark after Friday night. This they refused to do. They very sensibly refused to make either long distance trip with their team and then play ball Saturday afternoon. Hence the new arrangements whereby Grimsby played in Batawa yesterday and the Shoemakers will play the return game on the Public School grounds on Saturday afternoon with the game called for five o'clock.

Batawa is the team that the Kings put out in the finals last year and they were a right smart aggregation of ball players. Their weak point was in the pitching department. From a perusal of Sam Curry's Tweed News I gather that they have greatly strengthened that department this year. If so, then the Kings are in for a couple of tidy battles, maybe three. But if they have a new pitcher on the mound, he has got to be a pippin if he can tick Cocks.

### PEACH QUEENS ARE ORGANIZED

At a meeting in The Independent office on Friday night last, Peach Queens' Bowling League organized for the season. There will be 16 teams in the league again and the girls are all het up over the prospects for a great season of play. Sammy Curtis is the new President and her Secretaries are Doris (Red) MacBride and Little Mary (Irvine) Norton which speaks volumes for the success of the league. The schedule for the first week of play appears in this issue and the balance of the schedule will appear next week.

Thursday, September 28th	Friday, September 29th
7.30—Victory vs. Vimy	7.30—Elbertas vs. Vanguard
7.30—Vallants vs. Veterans	7.30—S. Haven vs. Golden Drop
9.00—Rochester vs. Vedette	9.00—Crawford vs. Admiral Dewey
9.00—Mayflower vs. Viceroy	9.00—John Hale vs. St. Johns

## WITH THE — TRUNDLERS

### GRIMSBY BOWLING LEAGUE

The committee of the Grimsby Bowling Club wish to announce to all men in the league that the collecting of money for prizes and entertainment will not be carried out. While the majority of the teams turned in their full support and co-operation in this matter the committee decided that 100% co-operation was needed to make it a complete success.

The committee does not want dissatisfaction or disunity among the players, but are doing their utmost to make the Bowling Club a success, and wish all teams and bowlers the best of luck in the 1944-45 season.

## DOWN EAST YANKEE

In Toronto, the street cars are generally crowded to the doors, although workers in factories and offices "pool" the use of their cars and the gasoline allowance to holders of A cards is more generous than in the United States. The driver with an A card receives 120 imperial gallons a year, which means 144 of our gallons as compared to the 96 allowed here. Bus travel, especially for journeys of any distance, are endurance contests, with persons frequently having to stand for two or more hours.

The government has tried to discourage long bus journeys by making one or two changes necessary where before the war one bus served. But this seems to have made little difference. People still travel for pleasure in Canada, just as they do here, especially when a holiday makes a weekend long.

The Monday the writer spent in Canada was a holiday. Early Saturday morning we took the boat to Niagara Falls, eager to get cooled off after a hot spell which seemed to outrank the one left behind. But evidently a good many of Toronto's 650,000 population had the same idea, and the boat was crowded to the rails.

We reached Queenston soon after 11. Long before our party of three climbed up the embankment, the three small busses which had waited for the arrival of the boat were filled, with many persons standing stiff and straight like so many sardines. We sat on our bags, waiting until we could get seats—and we waited until almost 12.30, while some of the passengers trailed down the hill to meet oncoming busses and then trailed back up again when they weren't picked up. Most travelers are good-natured and philosophical about the hardship, but nerve strain is occasionally evidenced by irritation.

Waiting seems to be as much a part of Canadian living in wartime as it is here. If one wishes to lunch or dine in downtown Toronto, one has to queue up. But once a table is obtained, you can get a much better meal than here and for much less. At an exclusive inn, a good sirloin steak with all the fixin's cost \$1.50. And meat, including steak, is plentiful on butchers' counters and much cheaper than in the United States, as well as unrationed. Meat rationing was tried in Canada for a very brief time only.

Rationing in Canada today seems much simpler than here. Only tea, coffee, sugar, preserves and butter are rationed. The tea and coffee are on one stamp, the sugar and preserves on another, and butter on a separate stamp. Each person is permitted four ounces of tea or half a pound of coffee a week, half a pound of sugar a week, depending on the amount available, and half a pound of butter a week. The tea-loving Canadians felt rationing as a hardship in the early days when the tea ration was limited to two ounces a week and the coffee to four ounces, and one had to choose one or the other.

Canned goods are not rationed, not because the supply is plentiful, but because there isn't enough to be rationed. Canned fish is scarce, canned fruit practically non-existent, although occasionally one can come across a few cans on some grocer's shelves. Canned vegetables are also scarce, and at times a special item, like canned peas, disappears from the stores for six months at a time. Canned fruit juice is also a rare find.

Liquor is rationed. Each adult resident or visitor may obtain a card for hard liquor at a government store at an annual fee of \$1 entitling him to a fifth every two months. There is no charge for a wine or beer card, and one may obtain a fifth of wine a month and a dozen bottles of beer for the same period.

Chocolate isn't rationed, as it is in England, but it is almost as much a treat as it is in this country. None of the popular chocolate bars are available. Until very recently customers were limited to half a pound of chocolate, but now one may buy as much as a pound at a time. It is cheaper than in this country, a good brand being obtainable at 60 cents a pound, but it also carries a tax of 11 cents.

This tax is not required for chocolate sent overseas to members of the armed forces. No request is necessary in Canada as it is here, and packages up to five pounds may be sent each month. In addition, many Canadians send food packages frequently to relatives in England.

Clothing is not rationed in Canada, but good woollens and cottons are scarce. Shoes are not rationed and seem cheaper than in this country. Few women wear stockings, and slacks seem almost as popular on the Toronto streets as they are on Main street here.

When it comes to taxes, the Canadian is very much aware that his country is at war. Income taxes are high, although probably no higher than they are in this country now. For a time there was compulsory saving also, but that has been dropped. There is no 10 per cent payroll withholding for bond buying, but there are bond drives twice a year.

"We aren't compelled to buy

bonds during these drives, but of course we all do or we'd feel ashamed," one office worker observed.

In addition to the larger war bonds, many buy stamps which may be turned in for \$4 war saving certificates.

## Cigarette Prices High

There is no visible tax on luggage or purses, but luggage is priced high and is also scarce. Cosmetics carry no tax which is added to the original price, but popular brands are a little higher than the same brands in this country even with the 20 per cent tax added. Both silverware and jewelry have a 25 per cent tax instead of our 20 per cent tax, and the same applies to fur coats. But the average smoker feels the war taxes most. Cigarettes in Canada have always been higher than in this country, but today they seem exorbitant to the over-the-border visitor. Ordinary popular brands comparable to those here two for 31 cents are 31 or 33 cents a pack of 20, and cork tipped cigarettes are 35 cents a pack.

Rents in Canada have increased since the war, but not quite as much as prices, in spite of price ceilings. Rents in Toronto seem much cheaper than in Springfield, and are kept at a certain level. The housing shortage is serious, and many seeking apartments or houses try to get around rental ceilings by offering rewards. The classified advertising columns of Toronto newspapers are filled with "ads" headed by "rewards" ranging from \$25 to \$100. A similar scheme tried here was early clamped down on by the rent investigating office, but it seems to flourish untouched in Canada. Hotel reservations in Toronto are also most difficult to obtain.

Canada makes things as easy and pleasant as possible for the tourist from the United States. When the immigration inspector examines the tourist's papers, he also inquires if one is planning to stay at a hotel or a private home. All visitors in private families for five days or longer are given a ration card to fill out. The writer presented hers at a rationing office in Toronto, and received a booklet with three stamps attached, one for four ounces of tea, a second for a pound of sugar and the third for half a pound of butter.

Tourists from the United States who are in Canada for more than 48 hours are permitted to bring back \$100 worth of merchandise duty free. They are exempt from the 25 per cent tax on jewelry, silverware and furs, and may have such articles mailed or shipped to this country, declaring them on the train and receiving a duplicate copy of their declaration to be sent to the store where they made their purchases.

The Canadian tourist who wishes to visit in the United States or Bermuda, however, has a more difficult time. Until recently he was permitted to take only \$30 out of the country, although now he may take up to \$150.

A walk through the streets of Toronto makes the United States tourist very much aware that he is in a country at war. Men in uniform are numerous. In addition to the native Canadians, there are many in Canadian uniform who bear on their jacket sleeve the name of their own country. These are men from the other United Nations who are training in Canada.

## Long Casualty Lists

Open a Toronto newspaper and you see not only that the housing shortage is severe, but that Canada's casualty lists are long. There are also numerous pictures of young men killed or wounded in action. Of Canada's 11,500,000 population, about a third, the French-Canadians, are exempt from conscription for overseas service. In addition to the 60,000 French-Canadians conscripted for home duty, Canada has more than 700,000 in the armed forces.

The writer spent the long holiday weekend at Grimsby, a pleasant little town of 5000 population in the heart of the fruit-growing district, and here the war seemed even more intimately tied up with the residents' lives. Grimsby is not far from an aviation training field and many of the townspeople open their homes to the officers and men for weekend holidays. Some hear from the young men even when they go overseas. The Canadian legion at Grimsby is vitally concerned in helping returning veterans and their families.

The labor shortage seems to have affected Canada as much as it has this country. In many Toronto shop windows, especially those of small restaurants, were signs advertising for help.

At the Grimsby high school, during the writer's visit, were quartered nearly 100 young high school girls, members of the land army, recruited by the government to help the fruit farmers. The girls slept on cots in the gymnasium and the boys' locker rooms. Their meals were brought from the Y.W.C.A. next door. They paid

\$4.50 each a week for their board, and were paid at the rate of 25 cents an hour. Many of the farmers, however, paid them also a cash bonus or used their trucks to take the girls to the beach or on picnics. The opening of the high school depended on how long the building would be needed by the fruit pickers, for life at Grimsby, as throughout Canada, is tuned to the needs of the wartime situation.

## GRIMSBY BLOOD

patient's veins and the results are swift and heartening.

Dried blood serum can be stored safely for years. It can be kept under all climatic conditions without deteriorating.

Since the inception of blood donor service in January, 1940, the following donations have been made at Canadian Red Cross clinics:

Year	Donations
1940	5,325
1941	33,981
1942	181,091
1943	529,635

In the six months from January 1 to June 30, 1944, there were 532,992 donations, more than the total for any previous 12 months.

On Wednesday next you can help in this worthy cause by donating YOUR blood. Grimsby Blood Clinic will be held in Trinity hall on that date. Call Wm. Hewson at 340 for information.

## GRIMSBY'S TEDDY

decoration is not only military, but is civil as well, and is highly prized. Every decoration should be well-earned, and the recipient should be worthy of it, he said.

"While the decoration honors Major Lancaster's distinguished services, his services also honor the decoration," said Major Ball.

He referred to the fact that Major Lancaster's mother, who has always taken a keen interest in affairs of the Battery was present to see the medal presented to her son.

Lt.-Col. T. A. Beasley, O.C. the 8th Field Regiment, spoke briefly, and turned the ceremony over to Major Ball.

In 1940 when Major Ball organized the reserve of the 10th Bat-

tery, Major Lancaster assisted him as second-in-command and reverted in rank to major, acting-captain. When Major Ball was appointed second-in-command of the 8th Field Regiment, Major Lancaster resumed his former rank as commanding officer of the Battery.

## PROPERTY MARKET

Bungalow with 1/2 acre in fruit. Grimsby east on highway. Purchaser Margaret A. T. Morrison from Niagara Falls. Vendor, The Brydon Estate. This property was immediately re-sold to Robert Livesey of Toronto.

Through the Pettit and Whyte Agency, Mrs. Camilla Biggar has disposed of the two storey frame house and lot at 71 Main east, occupied by Mr. and Mrs. John W. G. Smith to Wm. G. Greig, at present residing at No. 11 Livingston Ave. Mr. Smith and family will move to Hamilton to reside.

## STORE HOURS

agreeable to everyone will ever be worked out.

On motion of Herb. Betzner and Fred Case, the following schedule of hours was suggested: Monday, Tuesday, Thursday and Friday, 8.30 a.m. to 6 p.m.; Wednesday, 8.30 a.m. to 12; Saturday, 8.30 a.m. to 9 p.m. and it was recommended that these hours be presented to a meeting of the merchants to be held in the Council Chambers on Friday evening, Sept. 29th, for approval, also that the Wednesday hours prevail when a legal holiday comes in the week.

All merchants are urgently requested to attend this meeting on the 29th.

## MAY LAY CHARGES

Mrs. Frank McPhail was engaged on the public school staff as assistant in kindergarten primary and to continue her duties as part-time teacher at such times as kindergarten primary is dismissed.

A letter was received from Ontario Government advising that it is no longer collecting fees for public hall licenses and that any such fees collected will be refunded as of June 1.

Discussing the fact that some children of public school age are

not attending classes, it was suggested that it might be necessary to lay charges against the parents. Some of these children are picking fruit, it was reported, while others are doing nothing.

## His Number Up

With the RCAF in France—it's happened at last—a man got a shell which actually had his number on it.

The man who proved the legend true was LAC George McMillan of Tatamangouche, N.S., batman in an R.C.A.F. typhoon wing.

A piece of jagged shell casing the size of a silver dollar landed in a dugout beside him recently. McMillan picked up the ugly piece of metal, looked at it, observed it bore—"26750".

His eyes "popped wide open." He took out his identity card to convince himself. Yes, that was his Air Force number—26750.

This will also be recalled as the era when you had to be wealthy to hire a carpenter.

**There Goes that TELEPHONE!**

COPPER, rubber and other telephone materials continue to flow overseas in military communications equipment as well as in the form of ammunition, weapons, aircraft . . .

During one brief air battle, for example, this fighter plane's guns may spit enough copper to build several miles of telephone line.

War needs both at home and abroad must come first. Extensions to present telephone equipment are strictly limited. Fullest possible use must be made of existing equipment.

To those applicants who have been unable to obtain telephone service, we offer our regrets—and our thanks for their ready understanding of why their requests have had to be denied.

## 'CAMMYS' MAIL BAG

Dear Sir:

Received your cigarette O.K. Thanks a million. Everything is going well with me. Hope things are going fine around Grimsby. Thanks again for the cigarettes. R. E. Thaine.

Thanks a lot for the smokes I received on July 19th. They were sent May 19th and had gone away for awhile but I got them O.K. My best regards to all members. Spr. E. E. Keir.

Dear Sir:

Here I am again thanking you for the 300 cigarettes which I received just now. Thank the people of Grimsby and district, as you are doing a wonderful thing for the boys over here, as we do appreciate it very much. I am in the best of health and always glad to hear from anyone. Yours truly, Ger. L. A. Allan.

Dear Sir:

Once again, I have the pleasure in thanking you such a lot for the smokes I just received. It sure is swell of you to keep them coming so regular. I am sure all the other boys that get smokes from you appreciate them very much and are grateful to you all. Pte. A. D. Twosock.

Dear Mr. Millyard:

Just a line to let you know I received all the cigarettes you have been so kind to send me, except the 300 before the last one I received, 14/5/44. They were destroyed by fire I believe.

The cigarettes I have been receiving from the fund are the only ones that I can rely on, as they come regular, and are certainly appreciated by me. My regards to you, and one and all who so kindly contribute to your fund. Every thing going well here. Pte. G. R. Terryberry.

Thanks to you Carm and to all of those who assist for another parcel of cigarettes. Everything is fine as usual here, but I could go for a basket of Grimsby peaches. Kind regards and good luck to all of you. Vance Farrell.

Extend my thanks to one and all in good old Grimsby. We boys over here will never forget your generosity. The way things are moving I will be walking down the main street soon again. Pte. D. A. Copeland.

Dear Carm:

Believe me if you were here I'd kiss you. I ran out of cigarettes

last week and have been smoking blind efforts till I received your Grimsby Public School on Tuesday morning and at the meeting of the Women's Institute on Tuesday night. He gave a brief outline of the work being done in Lincoln County on behalf of the blind people and of the success that is gradually being met with.

"During the past year, the first street car concession has been obtained from the N.E.T. which enables the blind people to travel free in any of their lines, Niagara Falls, St. Catharines, and other lines. The same concession has been obtained from the Erie Coach line, covering their line."

"Seven blind people have been placed in profitable employment, either in domestic or industrial work, particularly in the latter, they are playing their part in the war effort. Two new industrial canisters have been secured as well as a dry stand, which will supply suitable work for the blind. Through the co-operation of the C.N.R. and the Lions Clubs, two blind weaving teams have been formed, the highest single score being 121."

"Also the Blinded Home Club for the blind women, under the leadership of Mrs. Elley as their President, a number of the blind women from Grimsby have paid a visit to this Club."

"The Institute are negotiating for a site in St. Catharines for either remodeling, or a brand new building, which will accommodate 25 blind folk, who have no home or close relatives. It is hoped that each one will have their own room, with a dining room and recreation and social centre."

A woman is an animal who can carry on a conversation with a woman and be listening in on a near-by conversation.

One again I have the pleasure of being on the receiving end of another 300 cigarettes from you and the Chamber of Commerce. I thank you all as these Canadian smokes really taste good. The best thing about the smokes you just sent, they were sent on July 1st and I got them Aug. 1st, just eleven days to get here, that is pretty fast don't you think? This new idea they have of sending smokes in really good. I was just in action and have come out all safe and sound and now I have a lot of letter writing to do. Well, how are things with you, Mr. Millyard?—fine and dandy I hope. I hear Grimsby has changed quite a bit lately, all the store owners getting their shops all fixed up. . . . say we won't recognize the place when we get back. Well I guess this is all for now. Once again thank you and the Chamber of Commerce for the good work you are doing (Bingo Jumbo) otherwise, good bye. Hope to see you all soon.

Yours sincerely,  
Normie Warner.

## Fall Fair Dates

Windsor	Sept. 22-24
Amherst	Sept. 26-27
Port Erie	Sept. 26-27
Beausville	Thanksgiving Day
Caledonia	Oct. 12-14
Simcoe	Oct. 2-5
Smithville	Oct. 5-6

A complete list of all Fall Fairs and Exhibitions being held in Ontario this year may be seen at The Independent Office.

## America's Name

When Columbus discovered America the continent had no name. He thought he had reached a western part of India, so he called the islands in the Caribbean Sea the West Indies.

The name America came from Amerigo Vesputi, a traveller from Florence, who visited that country a year after Columbus. The name America was not used by Columbus.

## Children's Aid Tag Day

The Children's Aid Society of St. Catharines and Lincoln County is again appealing for financial assistance through its Annual Tag Day. This is to be held in Grimsby on Saturday, September 23rd.

At present the Society is giving services to 276 children placed in foster homes throughout the County and City. In addition, there are 239 families whom the Society is supervising. Where possible the Society believes in leaving children in their own homes. Continuous supervision in order to prevent neglect is therefore necessary. During the past year the Society has enabled a number of families to gain their self respect through friendly and helpful contacts. Occasionally it is necessary to undertake vigorous legal action where neglect is serious. It is the aim of the Children's Aid Society that every child should have health, love, and examples of devotion and honesty to follow.

Mrs. Geneva Warner will be the convener for the Tag Day in Grimsby. Let us all get behind the Children's Aid Society and help it guarantee that our children will be given the opportunities of a decent wholesome life.

Kind Tag Day  
Saturday, 30th

Mr. W. B. Macdonald of St. Catharines, Field Secretary for the Grimsby Public School on Tuesday morning and at the meeting of the Women's Institute on Tuesday night. He gave a brief outline of the work being done in Lincoln County on behalf of the blind people and of the success that is gradually being met with.

"During the past year, the first street car concession has been obtained from the N.E.T. which enables the blind people to travel free in any of their lines, Niagara Falls, St. Catharines, and other lines. The same concession has been obtained from the Erie Coach line, covering their line."

"Seven blind people have been placed in profitable employment, either in domestic or industrial work, particularly in the latter, they are playing their part in the war effort. Two new industrial canisters have been secured as well as a dry stand, which will supply suitable work for the blind. Through the co-operation of the C.N.R. and the Lions Clubs, two blind weaving teams have been formed, the highest single score being 121."

"Also the Blinded Home Club for the blind women, under the leadership of Mrs. Elley as their President, a number of the blind women from Grimsby have paid a visit to this Club."

"The Institute are negotiating for a site in St. Catharines for either remodeling, or a brand new building, which will accommodate 25 blind folk, who have no home or close relatives. It is hoped that each one will have their own room, with a dining room and recreation and social centre."

## CONTINUATIONS

From Page One

## HOSPITAL PLANS

say. It looks like a three to four months' job if there are no set backs.

How much money have you got, and what will it cost?

We have thirty odd thousand lined up, it will cost to my odd thousand to alter and equip. The general estimate is for \$20,000.00, but we must wait over a thousand for sales tax, then there is equipment and operating money to be found.

Where are you going to get the balance of the money?

We expect by popular public subscription, various organizations, business places, memorials, and so on.

You call this a Memorial Hospital, are there any memorials set up?

Yes, quite a number, for those who have gone before, and for the future, something to make our district a better place in which to live, a living memorial that does some good.

Will the proposition be a success?

Well, that depends on the people, and you can depend on them.

What organizations are contributors?

Lions, Grimsby and Beausville, I.O.O.F., Women's Institute, White Elephant, Canadian Legion, Boy Scouts, County of Lincoln. Then of course there are many Companies, and the fruit growers effort is still open.

Can you get staff to operate?

We think so, we have quite a list already, of those who would like to come along.

Will you have a general canvass for funds?

Maybe, but canvassers are scarce, everyone is busy, and donations handed in to any Bank, or to

Quality You'll Enjoy

## 'SALADA' TEA

Officials of the Hospital will save that much work.

Any further comments?

Well, we have come a long way, we are assured the building can be figured at \$20,000.00 in a \$70,000.00 undertaking, so we have say \$50,000.00 or over 70%, and now that a real start has been made, we hope the public will come in, in a hurry and HELP FINISH THE JOB.

## BUTTER RATION CUT

With butter stocks in Canada Sept. 1, at 11,500,000 pounds below the total at the same date last year, it has been necessary to postpone the valid dates of two more pairs of butter coupons, the War-time Prices and Trade Board has announced.

Coupons 80 and 81, which ordinarily would have become valid Oct. 5, will not be good for butter purchases until Oct. 12, and the valid dates of coupons 86 and 89 are postponed to Dec. 14.

Early announcement of the coupon postponements was made so consumers can plan to make their butter purchases last longer. Butter bought on Sept. 21 with coupons 78 and 79 must do the consumer for three weeks, until Oct. 12. Butter bought on Nov. 23 with coupons 86 and 87 also must last for three weeks.

A man knows when he is sick. His pipe tastes as bad to him as it smells to others.
